

TMDLs in the Puget Sound Region
2004-2010
October 2007

This list includes TMDLs that have been approved since 2004 (which are currently being implemented); as well as those TMDLs currently under development which Ecology expects to complete by 2010. Each of these TMDLs is designated as a high, medium or low EPA involvement TMDL (I have not included those designations here). Missing from this list are those TMDLs approved prior to 2004 that are still in the implementation phase (of which there are many).

| Sub-basin | Description (River / Lake: pollutant and status) | Contact |
|----------------------------------|---|----------------|
| Strait of Juan de Fuca | Dungeness Bay TMDL (approved May 2004) addresses bacteria contamination in the Bay; Jamestown S'Klallam Tribe received funding from Region 10 to model the Bay. | Laurie Mann |
| Hood Canal | | |
| North Central Puget Sound | Sinclair Dyes Inlet fecal coliform TMDL (estimated completion: summer 2008) | Martha Turvey |
| South Puget Sound | Nisqually watershed bacteria TMDL was approved in August 2005 | Dave Ragsdale |
| | Tributaries to Totten, Eld and Little Skookum Inlet: bacteria TMDL (approved June 2006) | Laurie Mann |
| | Henderson Inlet & Tribs: bacteria TMDLs approved January 2007 | Dave Ragsdale |
| | Deschutes River TMDL (for many different pollutants); estimated completion: summer 2008 | Dave Ragsdale |
| | Oakland Bay and Hammersly Inlet TMDLs for | Laurie Mann |

| | | |
|----------------------------------|--|---|
| | temperature and fecal coliform (estimated completion: winter 2009) | |
| | South Puget Sound DO Study – a comprehensive study of DO impairments in the South Puget Sound (EPA/OWW/WU provided \$80,000 for sediment study). | 2010 for TMDL completion (no EPA lead assigned yet) |
| South Central Puget Sound | Cottage Lake Phosphorus TMDL. Located 4 miles east of Woodinville (approved July 2004) | Martha Turvey |
| | Issaquah Creek Basin TMDL addresses bacteria impairments (approved October 2004) | Martha Turvey |
| | Little Bear Creek TMDL addresses bacteria (approved July 2005) | Martha Turvey |
| | Swamp Creek bacteria TMDL (approved August 2006) | Martha Turvey |
| | Fauntleroy Creek (West Seattle) TMDL for bacteria (approved August 2007) | Laurie Mann |
| | Clarks and Meeker Creek TMDL for fecal coliform (estimated completion fall 2007) | Laurie Mann |
| | Lower White TMDL. EPA, Muckleshoot Indian Tribe and Ecology are developing a phosphorus TMDL for State and Tribal Waters (estimated completion: late 2008) | Laurie Mann |
| | Snoqualmie River temperature TMDL (estimated completion summer 2009) | Jenny Wu |
| | Bear Evans temperature and DO TMDL (estimated completion: summer 2009) | Laurie Mann |
| Whidbey Island | Stillaguamish Basin TMDL for fecal coliform bacteria, DO, pH and mercury (approved June 2005). Temperature TMDL (approved Sept 2006) | Jayne Carlin |

| | | |
|--|--|---------------|
| | Whatcom Lake and Creek (fecal coliform, temperature, DO and pH). Estimated completion: winter 2008 | Dave Ragsdale |
| | Samish Bay fecal coliform TMDL (estimated completion: summer 2008) | Martha Turvey |
| | Old Stilliguamish temperature TMDL (estimated completion: summer 2008) | Jayne Carlin |
